Subject: RE: Agenda for July 9,2024 item 6. US 101/SR92 Interchange
Date: Tuesday, July 9, 2024 4:20:51 PM

Hello Carolyn, thanks for your interest. The address you provided is located along US 101 in the southbound direction. Based on previous planning work, potential sliver impacts were only identified in the northeast quadrant of the interchange along US 101 in the northbound direction. At this time, we do not anticipate any impacts to that property, South Amphlett Boulevard, or the adjacent soundwall. However, the current phase of the project will include additional surveys to more accurately define needed property to reduce the previously identified property impacts. Please do continue to follow the project via updates to the project webpage at www.smcta.com/101-92DC.

Thanks,

Carolyn Mamaradlo

You don't often get email from cdkiely@aol.com. [Learn why this is important](#)

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders.

Will the freeway wall at 1100 South Amphlett Blvd. be moved?

If the answer is yes, how many feet will the wall be moved?

What will be the height of the new freeway walls on South Amphlett Blvd?

What other changes are expected to occur on South Amphlett Blvd.?

Thank you.
Carolyn Kiely
