Total Measure A Funds Requested \$9,319,066
Total Measure A Recommended Award Amount \$4,946,000
Total Contingency List Projects \$1,662,366

Footnotes

1) Measure A Recommended Contingency List: Contingency list created in case a) sponsors of projects recommended for a Measure A funding award, with an unfunded need in excess of \$1 million, are not able to secure remaining funds to complete the requested scope/minimum operable segment within 1 year of receiving a Measure A allocation, b) other projects on the recommended award list are not able to meet program requirements, or c) additional funds becomes available from other Measure A Pedestrian and Bicycle Program funded projects that are completed with remaining balances.

2) Proposed Phase for Measure A funds: PLAN - planning, PE/ENV - preliminary engineering/environmental review, PS&E - final design, ROW - right of way, CONST - construction

3) Secured Match: Secured sponsor funding contribution for work yet to proceed.

4) Funding Gap to Complete Requested Scope: This column is applicable to large projects with an unfunded phase/operable segment with costs in excess of \$1 million. Per the program guidelines, sponsors of these projects would have up to one year to secure the remaining needed funds, approved for a Measure A funding award.

5) The City of San Carlos will have up to one year to secure funding for the remaining unfunded need of \$3.1 million for the US 101/Holly Street Pedestrian and Bicycle Overcrossing. If San Carlos is not successful in securing the remaining unfunded need, Measure A funds will be redirected to projects on the contingency list.

6) A portion of the South San Francisco Sunshine Gardens Safety and Connectivity Improvements Project is on the contingency list.
